

Michael, Here are a couple points I see regarding the Survey:

- Nationality/Race - on this point, I've thought about it a bit more. I was looking to discern the person's cultural identity. What if we could determine, for example, if a bunch of Native American people were getting healed or something...? Maybe it's relevant to include this one. We can always, which I'm sure we will need to, adjust things over time.
- Condition list - I think this is the original list from April 11th survey. Is that right? It looks a little different, but is that because the choices have been alphabetized?
- On the question - Were you healed by your own faith or was it because of the faith of another person that prayed for you? The choices listed are incorrect. It should be : own faith or another person's faith
- Section from the survey that has a place for "Testimony or Additional Comments" then in the blank it says Testify or Comment. I think I'd just like this to say Additional Comments, because the very next thing is Testimony video link. Ultimately, I really only want video testimonies.
- I wanted this question to be conditional, but I don't think I made it that way originally ... The question should go like this.... Did you believe in Jesus prior to receiving your healing miracle? Yes or No; if yes, how long have you been a believer in Jesus? Time category - I'm not sure - any thoughts? Less than 1 year; 1-2 years, 3-5 years; 5+ years
